TECHNICAL GUIDE NOTICE ND-14

This notice announces the addition of form ND-CPA-52e to Section III of the Field Office Technical Guide (FOTG), located on the North Dakota NRCS homepage, <http://www.nd.nrcs.usda.gov/resources/section3.htm>. It replaces the "Resource Concerns Checklist for Conservation Planning in North Dakota."

The ND-CPA-52e will be used as a checklist by resource conservation planners to address resource conservation concerns, and to ensure quality criteria are met when planning conservation practices and conservation management systems.

Please review and become familiar with the new checklist.

Filing Instructions:

1. Print the attached Table of Contents for Section III and insert it at the beginning of FOTG Section III.
2. Dispose of any January 2002 versions of the Resource Concerns Checklist.
